Dear Hiring Manager

I am a results-driven Computer Science graduate from University of the western cape passionate about developing user-friendly software applications. Excellent problem-solving skills and ability to perform well in a team. seeking an opportunity to use my background skills, as well as grow and develop my own skills as a coder.

With my Bachelor of Science in Computer science and some projects experience of managing data-related solutions under my belt, I am confident I will be a valuable asset to your team.

In my previous role as a Data Scientist for Cat recognition project , I have been afforded the unique opportunity to spearhead a project focused on big data processing. This project has allowed me to drastically expand my predictive analytics and behavior analysis capabilities. Through my management, the project produced high accuracy results.

During my position with Visual Fusion I worked extensively with machine learning and data mining techniques to infer marketing insights and forecast sales. I was responsible for using data visualization techniques to increase the usability and accessibility of data for the sales and marketing departments. Working closely other departments allowed me to hone my interpersonal skills and the ability to present complex technical information to non-technical personnel.

It would be a pleasure to learn more about your company's expansion plans and provide further insight into how my highly developed data analytic abilities, experience managing large data sets, robust predictive analytics, and machine learning skills can help your company achieve these results.

Thank you for your time and for considering my candidacy for this position. I look forward to hearing from you in the near future to schedule an interview.

Yours truly,

Wanga Mbabe
