## Education

### Bachelor of Computer Science

UNIVERSITY OF THE WESTERN CAPE Cape Town | 2015 - Present

The Computer Science (CS) department of the University of the Western Cape strives to produce top quality well rounded Computer Scientists. This is achieved by providing innovative programs in Computer Science to empower graduates to assist in improving the quality of life for all South Africans through the development and application of Information and Communication Technologies (ICT's)

### Science and Mathematics

PERCY MDALA HIGH SCHOOL , Knysna | 2010 - 2015

Percy Mdala High School offers Grades 8 to 12. In all of Knysna's history, few people can have served their community with the devotion that Percy Mdala did. Percy Mdala came here in 1956 to work for Bishop Stainton, who was then Rector of St George's. He taught at St. Paul's Caradoc, which was housed in the church hall at Salt River. When Mdala arrived there, the school had about 25 pupils, and was supported financially by the Anglican Church. It received no funding from the Government's Education Department

## Skills

### Skill group

Communication  
Problem-Solving  
Skills in Chairing  
Meeting  
Conflict  
resolution  
Agile  
Persuasion and  
Influencing Skills

### Technical skills
